SUMMARY

My interest in technology since my childhood led me to study computer engineering. As a curious person, I love solving complex problems and finding new answers to existing solutions. I am a fast learner, have problem solving skills and are prone to teamwork. I aim to contribute to society by producing user-oriented solutions in future projects. I aim to become a talented team leader by improving not only my technical knowledge but also my communication and collaboration skills. My goal is to do things that can touch people's lives in the projects I work on and to create good works with teamwork.

EDUCATION

Fenerbahçe University (Full Scholarship Computer Engineering)

I studied computer engineering at Fenerbahçe University with a full scholarship. I grasped the basics of programming and the deep philosophy of algorithms. I managed the university's software club for 2 years. Together with my team, we planned the organization of various software events and projects.

EXPERIENCE

Cormind - Full Stack Engineer

Istanbul (Dec. 2022 - Now)

I had the chance to work with the CTO of the company where we serve Turkey's largest production factories. We developed industry 4.0 software in order to catch up with the technology era for the leading factories in the production sector.

VBT - Intern

Istanbul (June 2022 - Sep. 2022)

At VBT, one of Turkey's largest software companies, I learned how software projects are carried out, how agile methods are used in software processes, and computer architecture.

Flalingo - Full Stack Developer

Germany (Dec. 2021 - May 2022)

I had my first professional software development experience at Flalingo, a startup based in Germany. I completely rebuilt the frontend of the application with React.

My work was appreciated and I was promoted from intern to the main team.

SKILLS

- **Programmng:** HTML, CSS, Javascript, Typescript, ReactJS, NodeJS, Java, SpringBoot
- **Tools:** Git, SQL, Redis, Rest APIs, GraphQL, Docker, TypeOrm, MongoDB, PotgreSQL
- **Languages:** Fluent in Turkish, Intermediate in English
